You are a multi-talented personality. This is difficult for you to keep yourself stable on any point,field or subject if you will be able then no one will be able to challenge you in that area, you will be top of that. Fast changes and growth is your passion. If possible be ambitious with practical approach and realistic possibilities. You are having always very high ambitions and you never give importance to little gain. Your sensitivities ride high, while your freedom of speech or action is restricted. To attain this freedom you adapt yourself so well that makes you a master of the art of selling ideas beautifully which people accept naturally. Definitely you are a fast thinker, clear and analytical. Whenever you take any responsibility or task you engrossed in that so you have isolation. Frivolous energies may get scattered unnecessarily. Some mistakes you make out of glib action may occur again and again. Your interest levels are in state of flux. You dream of relationships with your family and friends to be meaningful & cooperative. You seek to be a peace maker and mediator among them. You cast an image that you are very flexible and approachable of a easy going person. Summery of your life Path :

### Birth to 2013

In this period you will show that you are independent. You catch on with originality and creative thoughts. At early stages you tend to lead but when a time to follow comes you find it difficult. Your self-confidence and the sense of individuality can help you to achieve success. No doubt, you are aggressive in this period. Opportunities do come your way to develop your creative potential but you may not recognize this and put in the hard work that is required. Unfortunately you will be occupied with the wrong ideas and you fritter away your energies.

### From 2014 to 2022

A degree of aggressiveness marks your behavior. Initiative plays an important role in developing your talents. Your achievements come to the lime light and your leadership qualities also unfold with a sense of independence.

### From 2023 to 2031

This piece of time gives you the ability to work smoothly so that you outsmart your competition easily. Economic limitation may be a factor but you build yourself with steady growth. Your ability to use diplomacy and mediation will be more pronounced. The key to your advancement is with the success of others, so this is why you should go slow in your action plans. Your hyperactive emotions need to be put under control.

### From : 2032 to Above

In your later part of life you will be philanthropic and can even give more to it if your financial circumstances can allow you to do so. Care for the humanity grows with age and this comes to you naturally. Your spiritual life will be glowing so you will find yourself busy in research and venturing into new interesting subjects. Nevertheless, you will be living an isolated life.

### **Dosha in Birth chart :**

You have two rina one is Jeeva hatya and another is pitra rina. You may adopt following remedies for that :

1. Collect money from members of your family and make or donate in animal hospital.
2. Do pitradosha shanti.

(My personal view is these rina never neutralized by rituals you have to go through the punishment decided by God. In your case this is already happened so need not to worried. You have no love from your father so you have already passed through punishment and delay in positive result will be always. Hard working and less return will be always there.)
